

# Bellevue Union School District Measure J Citizen's Oversight Committee

## Annual Report for 2009-10

October 12, 2010

Two members of the committee met to review the Performance Audit and other documents provided by the Superintendent.

The Superintendent explained that the two other members were absent due to scheduling conflicts and two other positions were vacant and it had been difficult in obtaining volunteers for the committee positions representing a business organization and senior citizens organization.

Those in attendance accepted the auditor's report and noted the auditor's conclusion that the District was in compliance with bond documents and California law.

The committee requested the Superintendent publish this report on the District's website.
